Hi Phil,
Would you like to respond? Thanks - Tami

Subject: pebble help

Dear Ms. Fordham,

I read with interest the EPA's environmental assessment of the Bristol Bay area and the potential impacts of the proposed Pebble Mine.

I am writing to inquire if the EPA needs any assistance in the project. My daughter and I can provide a unique perspective on some of the information collection needed, most likely on a short term basis. I am in need of a sabbatical. I was a former set net fisherman at the mouth of the Kvijack in the mid 80s and my daughter was the environmental policy advisor for Governor Dave Freudenthal (Wyoming) for 5 years. She is now in the Netherlands for a brief tenure, hoping to return to the US, and Alaska is on her radar.

I have searched the Federal Register, so far to no avail, so I thought I'd just drop you a note, knowing that policy assistance takes various approaches.

Hope you were able to enjoy some quality Sockeye while in in the Bristol Bay area. We enjoyed it much like Forest Gump and his friend Bubba enjoyed shrimp - every way possible.

Any direction or recommendations would be greatly appreciated.

--
